## **Health and Safety Policy Statement**

This is the Health and Safety Policy Statement of Geothermal International Ltd.

It is the Company's policy as far as is reasonably practical:

- to provide adequate control of the health and safety risks arising from our work activities;
- to provide a high standard for the health, safety and welfare of its employees;
- to make every effort to provide safe and healthy working conditions;
- to provide such training of its employees in accordance with its obligations;
- to ensure all employees are competent to do their tasks,
- to ensure that protective equipment is provided where required for the safety of its employees;
- to prevent accidents and cases of work-related ill health;
- to provide and maintain safe plant and equipment;
- to ensure safe handling and use of substances;
- to participate in general consultation on matters of safety as appropriate;
- to review and revise this policy as necessary at regular intervals to prevent injury damage or loss to personnel or assets.

It is the employee's legal responsibility to do everything possible to take reasonable care for the health and safety of themselves and that of others.

This Policy will be implemented within the framework of a Health and Safety management system designed to meet the requirements of OHSAS 18001, to which the company will seek certification by the middle of 2012

Signed by *[Signature]* Date 13/7/10

This policy will be reviewed July 2011
